DAGSIS UNIVERSITY DUMMY

MASTER AI CHATBOT KNOWLEDGE BASE & COMPLETE INSTITUTIONAL REPOSITORY

Registration: CPE UEN: 201829481E **Validity:** 4-Year EduTrust Certified	**Principal Address:** 123, Street ABC, State XYZ, Pin-000000	**Central Hotline / WhatsApp:** +65 XXXXXXXXX	**Official Email:** admissions@dagsis.edu.sg

OFFICIAL AGENT INSTRUCTION & SCOPE: This master document serves as the single source of truth for the Dagsis AI Chatbot Agent. It encapsulates exhaustive operational, academic, statutory, fee, and admissions policies across all 100 courses, 30 faculty trainers, 10 regional campuses, 20 certifications, and government subsidy calculations. The agent must quote exact numbers, policies, prerequisites, and contact details from this corpus without hallucination.

1. Institutional Governance, Accreditation & Performance Metrics

Dagsis University Dummy is a distinguished Private Education Institution (PEI) duly registered under the Private Education Act (Chapter 247A) of Singapore (UEN: 201829481E). The University maintains a 4-Year EduTrust Certification, authorizing the delivery of executive diplomas, technical certificates, and Cambridge academic preparatory curricula.

- **Academic Distinction & Standards:** Registered with the Academic & Examination Board of Singapore.
- **Historical Alumni Body:** Over 14,850+ graduated executives, working adults, and academic distinction scholars.
- **Overall Pass & Distinction Rate:** 98.4% across all modular technical and preparatory examinations.
- **Independent Student Satisfaction Benchmark:** 99.1% overall student approval rating.
- **Approved Government Schemes:** SkillsFuture Singapore (SSG) approved training partner, NTUC Union Training Assistance Programme (UTAP) eligible, Post-Secondary Education Account (PSEA) compliant.

Active Programmes	Faculty Members	Campus Network	Industry Credentials	CPE Pass Rate
100 Courses	**30 Master Trainers**	**10 Facilities**	**20 Certifications**	**98.4%**

2. Complete Directory of All 10 Singapore Campus Locations

All regional campuses operate high-speed enterprise workstations, lecture theaters, and collaborative breakout pods.

Campus Name & Specialization	Address & Direct Line	Nearest MRT & Access Route	Operating Hours (SGT)
Orchard Flagship Main Campus Executive & STEM Flagship Hub	123, Street ABC, State XYZ, Pin-000000 **Tel:** +65 XXXXXXXXX **Email:** admissions@dagsis.edu.sg	**Somerset MRT (Direct Underpass, Exit B)**	Mon-Fri: 9:00 AM - 9:30 PM | Sat-Sun: 8:30 AM - 7:00 PM

3. Academic Domains & Subject Disciplines (21 Specialized Tracks)

Discipline Track	Scope & Curricular Objectives	Benchmark Target Careers & SGD Salary	Core Technical / Academic Skills
Data Analytics	Master SQL, Tableau, Power BI, and statistical inference to turn complex data into strategic business impact.	**Data Analyst / BI Specialist (SGD 4,500 - 8,200/mo)**	SQL, Tableau, Power BI, Excel Advanced, ETL Pipelines
Artificial Intelligence	Build intelligent applications using modern LLMs, neural networks, computer vision, and cognitive systems.	**AI Solutions Engineer (SGD 6,500 - 12,000/mo)**	GenAI, LangChain, PyTorch, Transformers, Prompt Engineering
Machine Learning	Implement predictive models, feature engineering, classification, and deployment pipelines.	**Machine Learning Engineer (SGD 6,000 - 11,500/mo)**	Scikit-Learn, MLflow, Supervised/Unsupervised Learning, TensorFlow
Cyber Security	Safeguard critical digital infrastructure with vulnerability assessment, ethical hacking, and threat mitigation.	**Cyber Security Analyst / Pentester (SGD 5,200 - 9,800/mo)**	Network Security, Penetration Testing, SIEM, Incident Response
Cloud Computing	Design highly available, scalable enterprise cloud architectures on leading enterprise cloud architectures.	**Cloud Solutions Architect (SGD 7,000 - 13,000/mo)**	Enterprise Cloud Architecting, Kubernetes, Docker, Terraform, CI/CD
Python Programming	From core algorithmic logic to web frameworks and backend systems, master the world's most versatile language.	**Python Software Developer (SGD 4,800 - 9,000/mo)**	Python 3.12, FastAPI, OOP, Data Structures, REST APIs
Digital Marketing	Drive high-conversion customer acquisition with SEO, programmatic ads, content strategy, and attribution modeling.	**Performance Marketing Manager (SGD 4,500 - 8,500/mo)**	Search Engine Marketing, Social Media Advertising, SEO, Conversion Rate Optimization
Business Analytics	Bridging technical data insights with high-level corporate strategy, financial forecasting, and decision analysis.	**Business Analytics Consultant (SGD 5,500 - 10,000/mo)**	Financial Modeling, KPI Frameworks, Predictive Forecasting, Executive Presentation
Coding & Robotics	Hands-on hardware and software integration with Arduino, micro:bit, Python, and automated mechanical robotics.	**Robotics Educator / Junior IoT Maker**	C++, Micro:bit, Sensors & Actuators, Algorithmic Thinking
IELTS Preparation	Achieve Band 7.5 - 9.0 with targeted diagnostic drills, speaking simulations, and academic essay mastery.	**University & Immigration Benchmark Exam**	Academic Writing Task 1 & 2, Oral Fluency, Speed Reading Techniques
PSLE Preparation	Rigorous MOE-aligned exam mastery across Math, Science, and English to secure AL1 & AL2 grades.	**Singapore Primary School Leaving Examination (PSLE)**	Heuristic Problem Solving, Science Open-Ended Keywords, Oral Presentation
O-Level Preparation	Structured Cambridge GCE O-Level prep designed to turn C6s into distinctions for JCs and Poly tracks.	**Singapore-Cambridge GCE O-Level Examination**	Pure Sciences Mastery, A-Math & E-Math Papers, English Comprehension
A-Level Preparation	Intensive H2 Mathematics, Sciences, Economics, and General Paper modules led by distinction coaches.	**Singapore-Cambridge GCE A-Level Examination**	H2 Subject Analysis, Case Study Deconstruction, GP Argumentation
English	Comprehensive language mastery spanning primary creative writing, secondary rhetoric, and adult business communication.	**Academic & Professional English Competence**	Creative Composition, Critical Reading, Rhetorical Analysis
Mathematics	Master Singapore heuristics, Olympiad logic, algebra, calculus, and multi-step word problem solutions.	**Olympiad & Academic Distinction Track**	Model Drawing Method, Calculus, Trigonometry, Speed Arithmetic
Science	Experimental physics, chemistry, and biology inquiry developed in certified lab training environments.	**Science Olympiad & Exam Distinctions**	Experimental Design, Scientific Keyword Precision, Data Interpretation

Chinese	Higher Chinese & Standard Chinese pedagogy focusing on creative composition, comprehension, and oral conversation.	**MOE Syllabus & HSK Level 5/6 Certification**	Higher Chinese Composition, Oral Fluency, Idioms & Classical Text
IB Programme	International Baccalaureate Middle Years & Diploma Programme mentoring for 40+ point achievers.	**IBDP World University Admissions Benchmark**	Internal Assessments (IA), Theory of Knowledge (TOK), Extended Essay
IGCSE Programme	Cambridge IGCSE curriculum coaching across core STEM and Humanities subjects with exam simulations.	**Cambridge International Certification**	Past Paper Mastery, Examiner Rubric Alignment, Time Management
Power BI	End-to-end Enterprise Power BI mastery: DAX formulas, Power Query, automated refresh, and interactive dashboards.	**Certified Power BI Data Analyst (PL-300)**	DAX Formulas, Power Query (M), Data Modeling, Executive Reporting
Software Testing	Industry-standard QA automation: Selenium, Playwright, Cypress, API testing, and ISTQB certification prep.	**QA Automation Engineer (SGD 4,500 - 8,500/mo)**	Playwright, Selenium WebDriver, Postman / REST Assured, CI/CD Testing

4. Master Directory of All 100 Accredited Programmes

Master schedule and pricing matrix for all 100 active executive diplomas, technical certificates, and academic preparatory courses.

*Net Fee reflects estimated payable tuition after eligible government subsidies under SkillsFuture Singapore (SSG) Baseline / Mid-Career Scheme.

5. Detailed Programme Profiles (Curriculum, Modules & Learning Outcomes)

Exhaustive curricular breakdown for every course, including modular syllabus topics, admission prerequisites, schedule timings, and targeted learning outcomes.

[CR001] PSLE Preparation Professional Course 1 — *PSLE Preparation*
Tuition Fee: SGD $1,015 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $515 | **Duration:** 6 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 1 (TR001) | **Schedule:** 10:00-13:00 | **Rating:** 4.8 (120 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in PSLE Preparation. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR002] O-Level Preparation Professional Course 2 — *O-Level Preparation*
Tuition Fee: SGD $1,030 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $530 | **Duration:** 8 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 2 (TR002) | **Schedule:** 10:00-13:00 | **Rating:** 4.8 (137 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in O-Level Preparation. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR003] A-Level Preparation Professional Course 3 — *A-Level Preparation*
Tuition Fee: SGD $1,045 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $545 | **Duration:** 10 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 3 (TR003) | **Schedule:** 10:00-13:00 | **Rating:** 4.8 (154 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in A-Level Preparation. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR004] Coding & Robotics Professional Course 4 — *Coding & Robotics*
Tuition Fee: SGD $1,060 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $560 | **Duration:** 12 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 4 (TR004) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (171 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Coding & Robotics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR005] Python Programming Professional Course 5 — *Python Programming*
Tuition Fee: SGD $1,075 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $575 | **Duration:** 16 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 5 (TR005) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (188 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Python Programming. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR006] Data Analytics Professional Course 6 — *Data Analytics*
Tuition Fee: SGD $1,090 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $590 | **Duration:** 4 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 6 (TR006) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (205 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Data Analytics. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR007] Artificial Intelligence Professional Course 7 — *Artificial Intelligence*
Tuition Fee: SGD $1,105 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $605 | **Duration:** 6 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 7 (TR007) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (222 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Artificial Intelligence. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR008] Machine Learning Professional Course 8 — *Machine Learning*
Tuition Fee: SGD $1,120 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $620 | **Duration:** 8 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 8 (TR008) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (239 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Machine Learning. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR009] Cyber Security Professional Course 9 — *Cyber Security*
Tuition Fee: SGD $1,135 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $635 | **Duration:** 10 Weeks (Evening)
Campus: City | **Trainer:** Trainer 9 (TR009) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (256 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cyber Security. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR010] Cloud Computing Professional Course 10 — *Cloud Computing*
Tuition Fee: SGD $1,150 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $650 | **Duration:** 12 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 10 (TR010) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (273 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cloud Computing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR011] Digital Marketing Professional Course 11 — *Digital Marketing*
Tuition Fee: SGD $1,165 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $665 | **Duration:** 16 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 11 (TR011) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (290 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Digital Marketing. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR012] Business Analytics Professional Course 12 — *Business Analytics*
Tuition Fee: SGD $1,180 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $680 | **Duration:** 4 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 12 (TR012) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (307 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Business Analytics. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR013] English Professional Course 13 — *English*
Tuition Fee: SGD $1,195 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $695 | **Duration:** 6 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 13 (TR013) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (324 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in English. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR014] Mathematics Professional Course 14 — *Mathematics*
Tuition Fee: SGD $1,210 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $710 | **Duration:** 8 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 14 (TR014) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (341 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Mathematics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR015] Science Professional Course 15 — *Science*
Tuition Fee: SGD $1,225 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $725 | **Duration:** 10 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 15 (TR015) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (358 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Science. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR016] Chinese Professional Course 16 — *Chinese*
Tuition Fee: SGD $1,240 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $740 | **Duration:** 12 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 16 (TR016) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (375 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Chinese. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR017] IB Programme Professional Course 17 — *IB Programme*
Tuition Fee: SGD $1,255 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $755 | **Duration:** 16 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 17 (TR017) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (392 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IB Programme. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR018] IGCSE Programme Professional Course 18 — *IGCSE Programme*
Tuition Fee: SGD $1,270 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $770 | **Duration:** 4 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 18 (TR018) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (409 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IGCSE Programme. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR019] Power BI Professional Course 19 — *Power BI*
Tuition Fee: SGD $1,285 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $785 | **Duration:** 6 Weeks (Evening)
Campus: City | **Trainer:** Trainer 19 (TR019) | **Schedule:** 10:00-13:00 | **Rating:** 4.8 (426 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Power BI. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR020] Software Testing Professional Course 20 — *Software Testing*
Tuition Fee: SGD $1,300 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $800 | **Duration:** 8 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 20 (TR020) | **Schedule:** 10:00-13:00 | **Rating:** 4.8 (443 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Software Testing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR021] PSLE Preparation Professional Course 21 — *PSLE Preparation*
Tuition Fee: SGD $1,315 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $815 | **Duration:** 10 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 21 (TR021) | **Schedule:** 10:00-13:00 | **Rating:** 4.8 (460 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in PSLE Preparation. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR022] O-Level Preparation Professional Course 22 — *O-Level Preparation*
Tuition Fee: SGD $1,330 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $830 | **Duration:** 12 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 22 (TR022) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (477 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in O-Level Preparation. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR023] A-Level Preparation Professional Course 23 — *A-Level Preparation*
Tuition Fee: SGD $1,345 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $845 | **Duration:** 16 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 23 (TR023) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (494 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in A-Level Preparation. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR024] Coding & Robotics Professional Course 24 — *Coding & Robotics*
Tuition Fee: SGD $1,360 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $860 | **Duration:** 4 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 24 (TR024) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (131 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Coding & Robotics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR025] Python Programming Professional Course 25 — *Python Programming*
Tuition Fee: SGD $1,375 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $875 | **Duration:** 6 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 25 (TR025) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (148 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Python Programming. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR026] Data Analytics Professional Course 26 — *Data Analytics*
Tuition Fee: SGD $1,390 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $890 | **Duration:** 8 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 26 (TR026) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (165 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Data Analytics. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR027] Artificial Intelligence Professional Course 27 — *Artificial Intelligence*
Tuition Fee: SGD $1,405 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $905 | **Duration:** 10 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 27 (TR027) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (182 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Artificial Intelligence. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR028] Machine Learning Professional Course 28 — *Machine Learning*
Tuition Fee: SGD $1,420 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $920 | **Duration:** 12 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 28 (TR028) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (199 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Machine Learning. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR029] Cyber Security Professional Course 29 — *Cyber Security*
Tuition Fee: SGD $1,435 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $935 | **Duration:** 16 Weeks (Evening)
Campus: City | **Trainer:** Trainer 29 (TR029) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (216 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cyber Security. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR030] Cloud Computing Professional Course 30 — *Cloud Computing*
Tuition Fee: SGD $1,450 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $950 | **Duration:** 4 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 30 (TR030) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (233 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cloud Computing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR031] Digital Marketing Professional Course 31 — *Digital Marketing*
Tuition Fee: SGD $1,465 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $965 | **Duration:** 6 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 1 (TR001) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (250 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Digital Marketing. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR032] Business Analytics Professional Course 32 — *Business Analytics*
Tuition Fee: SGD $1,480 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $980 | **Duration:** 8 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 2 (TR002) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (267 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Business Analytics. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR033] English Professional Course 33 — *English*
Tuition Fee: SGD $1,495 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $995 | **Duration:** 10 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 3 (TR003) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (284 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in English. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR034] Mathematics Professional Course 34 — *Mathematics*
Tuition Fee: SGD $1,510 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,010 | **Duration:** 12 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 4 (TR004) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (301 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Mathematics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR035] Science Professional Course 35 — *Science*
Tuition Fee: SGD $1,525 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,025 | **Duration:** 16 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 5 (TR005) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (318 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Science. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR036] Chinese Professional Course 36 — *Chinese*
Tuition Fee: SGD $1,540 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,040 | **Duration:** 4 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 6 (TR006) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (335 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Chinese. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR037] IB Programme Professional Course 37 — *IB Programme*
Tuition Fee: SGD $1,555 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,055 | **Duration:** 6 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 7 (TR007) | **Schedule:** 10:00-13:00 | **Rating:** 4.8 (352 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IB Programme. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR038] IGCSE Programme Professional Course 38 — *IGCSE Programme*
Tuition Fee: SGD $1,570 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,070 | **Duration:** 8 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 8 (TR008) | **Schedule:** 10:00-13:00 | **Rating:** 4.8 (369 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IGCSE Programme. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR039] Power BI Professional Course 39 — *Power BI*
Tuition Fee: SGD $1,585 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,085 | **Duration:** 10 Weeks (Evening)
Campus: City | **Trainer:** Trainer 9 (TR009) | **Schedule:** 10:00-13:00 | **Rating:** 4.8 (386 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Power BI. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR040] Software Testing Professional Course 40 — *Software Testing*
Tuition Fee: SGD $1,600 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,100 | **Duration:** 12 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 10 (TR010) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (403 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Software Testing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR041] PSLE Preparation Professional Course 41 — *PSLE Preparation*
Tuition Fee: SGD $1,615 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,115 | **Duration:** 16 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 11 (TR011) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (420 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in PSLE Preparation. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR042] O-Level Preparation Professional Course 42 — *O-Level Preparation*
Tuition Fee: SGD $1,630 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,130 | **Duration:** 4 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 12 (TR012) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (437 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in O-Level Preparation. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR043] A-Level Preparation Professional Course 43 — *A-Level Preparation*
Tuition Fee: SGD $1,645 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,145 | **Duration:** 6 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 13 (TR013) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (454 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in A-Level Preparation. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR044] Coding & Robotics Professional Course 44 — *Coding & Robotics*
Tuition Fee: SGD $1,660 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,160 | **Duration:** 8 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 14 (TR014) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (471 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Coding & Robotics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR045] Python Programming Professional Course 45 — *Python Programming*
Tuition Fee: SGD $1,675 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,175 | **Duration:** 10 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 15 (TR015) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (488 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Python Programming. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR046] Data Analytics Professional Course 46 — *Data Analytics*
Tuition Fee: SGD $1,690 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,190 | **Duration:** 12 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 16 (TR016) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (125 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Data Analytics. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR047] Artificial Intelligence Professional Course 47 — *Artificial Intelligence*
Tuition Fee: SGD $1,705 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,205 | **Duration:** 16 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 17 (TR017) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (142 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Artificial Intelligence. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR048] Machine Learning Professional Course 48 — *Machine Learning*
Tuition Fee: SGD $1,720 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,220 | **Duration:** 4 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 18 (TR018) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (159 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Machine Learning. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR049] Cyber Security Professional Course 49 — *Cyber Security*
Tuition Fee: SGD $1,735 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,235 | **Duration:** 6 Weeks (Evening)
Campus: City | **Trainer:** Trainer 19 (TR019) | **Schedule:** 10:00-13:00 | **Rating:** 4.9 (176 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cyber Security. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR050] Cloud Computing Professional Course 50 — *Cloud Computing*
Tuition Fee: SGD $1,750 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,250 | **Duration:** 8 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 20 (TR020) | **Schedule:** 10:00-13:00 | **Rating:** 5.0 (193 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cloud Computing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR051] Digital Marketing Professional Course 51 — *Digital Marketing*
Tuition Fee: SGD $1,765 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,265 | **Duration:** 10 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 21 (TR021) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (210 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Digital Marketing. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR052] Business Analytics Professional Course 52 — *Business Analytics*
Tuition Fee: SGD $1,780 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,280 | **Duration:** 12 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 22 (TR022) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (227 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Business Analytics. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR053] English Professional Course 53 — *English*
Tuition Fee: SGD $1,795 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,295 | **Duration:** 16 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 23 (TR023) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (244 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in English. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR054] Mathematics Professional Course 54 — *Mathematics*
Tuition Fee: SGD $1,810 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,310 | **Duration:** 4 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 24 (TR024) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (261 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Mathematics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR055] Science Professional Course 55 — *Science*
Tuition Fee: SGD $1,825 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,325 | **Duration:** 6 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 25 (TR025) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.8 (278 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Science. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR056] Chinese Professional Course 56 — *Chinese*
Tuition Fee: SGD $1,840 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,340 | **Duration:** 8 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 26 (TR026) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.8 (295 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Chinese. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR057] IB Programme Professional Course 57 — *IB Programme*
Tuition Fee: SGD $1,855 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,355 | **Duration:** 10 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 27 (TR027) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.8 (312 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IB Programme. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR058] IGCSE Programme Professional Course 58 — *IGCSE Programme*
Tuition Fee: SGD $1,870 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,370 | **Duration:** 12 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 28 (TR028) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (329 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IGCSE Programme. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR059] Power BI Professional Course 59 — *Power BI*
Tuition Fee: SGD $1,885 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,385 | **Duration:** 16 Weeks (Evening)
Campus: City | **Trainer:** Trainer 29 (TR029) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (346 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Power BI. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR060] Software Testing Professional Course 60 — *Software Testing*
Tuition Fee: SGD $1,900 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,400 | **Duration:** 4 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 30 (TR030) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (363 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Software Testing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR061] PSLE Preparation Professional Course 61 — *PSLE Preparation*
Tuition Fee: SGD $1,915 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,415 | **Duration:** 6 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 1 (TR001) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (380 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in PSLE Preparation. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR062] O-Level Preparation Professional Course 62 — *O-Level Preparation*
Tuition Fee: SGD $1,930 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,430 | **Duration:** 8 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 2 (TR002) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (397 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in O-Level Preparation. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR063] A-Level Preparation Professional Course 63 — *A-Level Preparation*
Tuition Fee: SGD $1,945 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,445 | **Duration:** 10 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 3 (TR003) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (414 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in A-Level Preparation. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR064] Coding & Robotics Professional Course 64 — *Coding & Robotics*
Tuition Fee: SGD $1,960 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,460 | **Duration:** 12 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 4 (TR004) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (431 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Coding & Robotics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR065] Python Programming Professional Course 65 — *Python Programming*
Tuition Fee: SGD $1,975 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,475 | **Duration:** 16 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 5 (TR005) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (448 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Python Programming. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR066] Data Analytics Professional Course 66 — *Data Analytics*
Tuition Fee: SGD $1,990 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,490 | **Duration:** 4 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 6 (TR006) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (465 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Data Analytics. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR067] Artificial Intelligence Professional Course 67 — *Artificial Intelligence*
Tuition Fee: SGD $2,005 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,505 | **Duration:** 6 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 7 (TR007) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (482 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Artificial Intelligence. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR068] Machine Learning Professional Course 68 — *Machine Learning*
Tuition Fee: SGD $2,020 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,520 | **Duration:** 8 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 8 (TR008) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (499 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Machine Learning. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR069] Cyber Security Professional Course 69 — *Cyber Security*
Tuition Fee: SGD $2,035 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,535 | **Duration:** 10 Weeks (Evening)
Campus: City | **Trainer:** Trainer 9 (TR009) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (136 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cyber Security. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR070] Cloud Computing Professional Course 70 — *Cloud Computing*
Tuition Fee: SGD $2,050 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,550 | **Duration:** 12 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 10 (TR010) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (153 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cloud Computing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR071] Digital Marketing Professional Course 71 — *Digital Marketing*
Tuition Fee: SGD $2,065 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,565 | **Duration:** 16 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 11 (TR011) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (170 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Digital Marketing. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR072] Business Analytics Professional Course 72 — *Business Analytics*
Tuition Fee: SGD $2,080 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,580 | **Duration:** 4 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 12 (TR012) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (187 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Business Analytics. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR073] English Professional Course 73 — *English*
Tuition Fee: SGD $2,095 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,595 | **Duration:** 6 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 13 (TR013) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.8 (204 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in English. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR074] Mathematics Professional Course 74 — *Mathematics*
Tuition Fee: SGD $2,110 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,610 | **Duration:** 8 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 14 (TR014) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.8 (221 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Mathematics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR075] Science Professional Course 75 — *Science*
Tuition Fee: SGD $2,125 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,625 | **Duration:** 10 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 15 (TR015) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.8 (238 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Science. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR076] Chinese Professional Course 76 — *Chinese*
Tuition Fee: SGD $2,140 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,640 | **Duration:** 12 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 16 (TR016) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (255 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Chinese. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR077] IB Programme Professional Course 77 — *IB Programme*
Tuition Fee: SGD $2,155 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,655 | **Duration:** 16 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 17 (TR017) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (272 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IB Programme. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR078] IGCSE Programme Professional Course 78 — *IGCSE Programme*
Tuition Fee: SGD $2,170 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,670 | **Duration:** 4 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 18 (TR018) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (289 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IGCSE Programme. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR079] Power BI Professional Course 79 — *Power BI*
Tuition Fee: SGD $2,185 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,685 | **Duration:** 6 Weeks (Evening)
Campus: City | **Trainer:** Trainer 19 (TR019) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (306 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Power BI. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR080] Software Testing Professional Course 80 — *Software Testing*
Tuition Fee: SGD $2,200 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,700 | **Duration:** 8 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 20 (TR020) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (323 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Software Testing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR081] PSLE Preparation Professional Course 81 — *PSLE Preparation*
Tuition Fee: SGD $2,215 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,715 | **Duration:** 10 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 21 (TR021) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (340 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in PSLE Preparation. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR082] O-Level Preparation Professional Course 82 — *O-Level Preparation*
Tuition Fee: SGD $2,230 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,730 | **Duration:** 12 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 22 (TR022) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (357 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in O-Level Preparation. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR083] A-Level Preparation Professional Course 83 — *A-Level Preparation*
Tuition Fee: SGD $2,245 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,745 | **Duration:** 16 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 23 (TR023) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (374 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in A-Level Preparation. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR084] Coding & Robotics Professional Course 84 — *Coding & Robotics*
Tuition Fee: SGD $2,260 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,760 | **Duration:** 4 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 24 (TR024) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (391 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Coding & Robotics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR085] Python Programming Professional Course 85 — *Python Programming*
Tuition Fee: SGD $2,275 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,775 | **Duration:** 6 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 25 (TR025) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (408 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Python Programming. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR086] Data Analytics Professional Course 86 — *Data Analytics*
Tuition Fee: SGD $2,290 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,790 | **Duration:** 8 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 26 (TR026) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (425 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Data Analytics. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR087] Artificial Intelligence Professional Course 87 — *Artificial Intelligence*
Tuition Fee: SGD $2,305 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,805 | **Duration:** 10 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 27 (TR027) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (442 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Artificial Intelligence. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR088] Machine Learning Professional Course 88 — *Machine Learning*
Tuition Fee: SGD $2,320 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,820 | **Duration:** 12 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 28 (TR028) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (459 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Machine Learning. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR089] Cyber Security Professional Course 89 — *Cyber Security*
Tuition Fee: SGD $2,335 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,835 | **Duration:** 16 Weeks (Evening)
Campus: City | **Trainer:** Trainer 29 (TR029) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (476 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cyber Security. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR090] Cloud Computing Professional Course 90 — *Cloud Computing*
Tuition Fee: SGD $2,350 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,850 | **Duration:** 4 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 30 (TR030) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 5.0 (493 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Cloud Computing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR091] Digital Marketing Professional Course 91 — *Digital Marketing*
Tuition Fee: SGD $2,365 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,865 | **Duration:** 6 Weeks (On-Campus)
Campus: Tampines | **Trainer:** Trainer 1 (TR001) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.8 (130 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Digital Marketing. Taught by industry-leading faculty at our modern Tampines campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR092] Business Analytics Professional Course 92 — *Business Analytics*
Tuition Fee: SGD $2,380 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,880 | **Duration:** 8 Weeks (Hybrid)
Campus: Jurong East | **Trainer:** Trainer 2 (TR002) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.8 (147 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Business Analytics. Taught by industry-leading faculty at our modern Jurong East campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR093] English Professional Course 93 — *English*
Tuition Fee: SGD $2,395 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,895 | **Duration:** 10 Weeks (Weekend)
Campus: Woodlands | **Trainer:** Trainer 3 (TR003) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.8 (164 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in English. Taught by industry-leading faculty at our modern Woodlands campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR094] Mathematics Professional Course 94 — *Mathematics*
Tuition Fee: SGD $2,410 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,910 | **Duration:** 12 Weeks (Evening)
Campus: Punggol | **Trainer:** Trainer 4 (TR004) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (181 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Mathematics. Taught by industry-leading faculty at our modern Punggol campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR095] Science Professional Course 95 — *Science*
Tuition Fee: SGD $2,425 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,925 | **Duration:** 16 Weeks (Online)
Campus: Bishan | **Trainer:** Trainer 5 (TR005) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (198 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Science. Taught by industry-leading faculty at our modern Bishan campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR096] Chinese Professional Course 96 — *Chinese*
Tuition Fee: SGD $2,440 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,940 | **Duration:** 4 Weeks (On-Campus)
Campus: Novena | **Trainer:** Trainer 6 (TR006) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (215 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Chinese. Taught by industry-leading faculty at our modern Novena campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR097] IB Programme Professional Course 97 — *IB Programme*
Tuition Fee: SGD $2,455 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,955 | **Duration:** 6 Weeks (Hybrid)
Campus: Bedok | **Trainer:** Trainer 7 (TR007) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (232 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IB Programme. Taught by industry-leading faculty at our modern Bedok campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR098] IGCSE Programme Professional Course 98 — *IGCSE Programme*
Tuition Fee: SGD $2,470 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,970 | **Duration:** 8 Weeks (Weekend)
Campus: Clementi | **Trainer:** Trainer 8 (TR008) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (249 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in IGCSE Programme. Taught by industry-leading faculty at our modern Clementi campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR099] Power BI Professional Course 99 — *Power BI*
Tuition Fee: SGD $2,485 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $1,985 | **Duration:** 10 Weeks (Evening)
Campus: City | **Trainer:** Trainer 9 (TR009) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (266 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Power BI. Taught by industry-leading faculty at our modern City campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

[CR100] Software Testing Professional Course 100 — *Software Testing*
Tuition Fee: SGD $2,500 | **SSG Subsidy:** SGD $500 | **Net Fee:** SGD $2,000 | **Duration:** 12 Weeks (Online)
Campus: Orchard | **Trainer:** Trainer 10 (TR010) | **Schedule:** 10:00-13:00 (Sat & Sun) | **Rating:** 4.9 (283 Enrolled)
Admission Prerequisite: Registration required | **Complimentary Trial Seats:** 20 seats per cohort
Programme Overview: A premier commercial training programme designed to develop high-level proficiency in Software Testing. Taught by industry-leading faculty at our modern Orchard campus with full hands-on labs and Singapore certification.
Curriculum Modules:
• **Module 1: Foundations & Core Architecture (Week 1 - 2):** Fundamental concepts, industry standards, and diagnostic baseline evaluation; Setting up professional development / examination practice environment; Core methodology breakdown, syntax/framework essentials, and guided hands-on lab
• **Module 2: Intermediate Deep Dive & Problem Solving (Week 3 - 5):** Heuristic frameworks, structural modeling, and intermediate analytical patterns; Real-world case simulations and past examination benchmark breakdowns; Debugging, optimization techniques, and error reduction strategies
• **Module 3: Advanced Applications & Capstone Project (Week 6 - 8):** High-complexity application design, advanced heuristics, and synthesis; Comprehensive capstone challenge / timed mock examination under real test conditions; Individual trainer feedback, grading rubric review, and fine-tuning
• **Module 4: Professional Certification & Career / Exam Readiness (Final Weeks):** Accreditation exam walkthrough and comprehensive portfolio defense; Industry best practices, interview readiness / examination distinction strategy; Issuance of verified digital credential and graduation ceremony
Core Learning Outcomes: Master essential core competencies and frameworks aligned with Singapore standards | Build verified hands-on projects and realistic case study solutions | Attain accredited certification recognized by Singapore employers and educational institutions | Gain 1-on-1 mentorship, personalized diagnostics, and distinction-level confidence

6. Faculty Directory & Master Trainers (All 30 Educators)

Profiles, formal academic degrees, industry background, and assigned teaching modules for all 30 distinguished faculty members.

[TR001] Dr. Lin Chen — *PhD (NIE / NTU), Ex-MOE Curriculum Lead*
Specialization: PSLE Preparation | **Experience:** 4+ Years | **Student Rating:** 4.85/5.00 (350 students mentored)
Academic & Professional Qualifications: PhD (NIE / NTU), Ex-MOE Curriculum Lead
Biography & Industry Track Record: Former MOE Lead Curriculum Specialist with 15+ years formulating pedagogy for Singapore primary schools. Over 94% of her students score AL1/AL2 in PSLE.
Assigned Active Courses: CR001, CR031, CR061, CR091

[TR002] Marcus Goh — *MSc Mathematics (NUS), Distinction Coach*
Specialization: O-Level Preparation | **Experience:** 5+ Years | **Student Rating:** 4.86/5.00 (397 students mentored)
Academic & Professional Qualifications: MSc Mathematics (NUS), Distinction Coach
Biography & Industry Track Record: Specialist in O-Level Additional & Elementary Mathematics. Known for his systematic "Heuristic Breakdown" method that turns C6 grades into A1s.
Assigned Active Courses: CR002, CR032, CR062, CR092

[TR003] Clarissa Wong — *MA English Literature (Cambridge University)*
Specialization: A-Level Preparation | **Experience:** 6+ Years | **Student Rating:** 4.87/5.00 (444 students mentored)
Academic & Professional Qualifications: MA English Literature (Cambridge University)
Biography & Industry Track Record: Cambridge First-Class Honours graduate specializing in A-Level General Paper and H2 Literature. Regular contributor to Singapore educational journals.
Assigned Active Courses: CR003, CR033, CR063, CR093

[TR004] Adrian Lim — *BEng Robotics & Mechatronics (NTU), FIRST Mentor*
Specialization: Coding & Robotics | **Experience:** 7+ Years | **Student Rating:** 4.88/5.00 (491 students mentored)
Academic & Professional Qualifications: BEng Robotics & Mechatronics (NTU), FIRST Mentor
Biography & Industry Track Record: World Robot Olympiad gold-medal winning coach. Passionate about empowering young learners with physical computing, Arduino, and ROS.
Assigned Active Courses: CR004, CR034, CR064, CR094

[TR005] David Zhang — *MSc Computer Science (Carnegie Mellon), Ex-Major E-Commerce Group*
Specialization: Python Programming | **Experience:** 8+ Years | **Student Rating:** 4.89/5.00 (538 students mentored)
Academic & Professional Qualifications: MSc Computer Science (Carnegie Mellon), Ex-Major E-Commerce Group
Biography & Industry Track Record: Principal Software Architect and Python veteran. Designed large-scale distributed systems and trained over 1,200 software engineers across ASEAN.
Assigned Active Courses: CR005, CR035, CR065, CR095

[TR006] Dr. Valerie Koh — *PhD Statistics & Data Science (Stanford)*
Specialization: Data Analytics | **Experience:** 9+ Years | **Student Rating:** 4.90/5.00 (585 students mentored)
Academic & Professional Qualifications: PhD Statistics & Data Science (Stanford)
Biography & Industry Track Record: Former Senior Data Scientist at GovTech Singapore. Expert in exploratory data analysis, predictive modeling, and executive business insights.
Assigned Active Courses: CR006, CR036, CR066, CR096

[TR007] Rajesh Nair — *MTech Artificial Intelligence, Senior AI Systems Architect*
Specialization: Artificial Intelligence | **Experience:** 10+ Years | **Student Rating:** 4.91/5.00 (632 students mentored)
Academic & Professional Qualifications: MTech Artificial Intelligence, Senior AI Systems Architect
Biography & Industry Track Record: Deep learning practitioner with focus on computer vision and LLM fine-tuning. Consulted for top technology institutions.
Assigned Active Courses: CR007, CR037, CR067, CR097

[TR008] Prof. Kenneth Lee — *PhD Machine Learning (Imperial College London)*
Specialization: Machine Learning | **Experience:** 11+ Years | **Student Rating:** 4.92/5.00 (679 students mentored)
Academic & Professional Qualifications: PhD Machine Learning (Imperial College London)
Biography & Industry Track Record: Adjunct Professor and Machine Learning researcher with 11+ years consulting for SGX-listed corporations on algorithmic optimization.
Assigned Active Courses: CR008, CR038, CR068, CR098

[TR009] Bernard Tan — *CISSP, CISM, CREST Lead Pentester*
Specialization: Cyber Security | **Experience:** 12+ Years | **Student Rating:** 4.93/5.00 (726 students mentored)
Academic & Professional Qualifications: CISSP, CISM, CREST Lead Pentester
Biography & Industry Track Record: Cyber security veteran with military intelligence and enterprise Red Team experience. Mentor for national cyber defense competitions in Singapore.
Assigned Active Courses: CR009, CR039, CR069, CR099

[TR010] Kelvin Ho — *Enterprise Cloud Solutions Architect*
Specialization: Cloud Computing | **Experience:** 13+ Years | **Student Rating:** 4.94/5.00 (773 students mentored)
Academic & Professional Qualifications: Enterprise Cloud Solutions Architect
Biography & Industry Track Record: Solutions architect who has migrated multi-million dollar banking workloads to Kubernetes and serverless cloud architectures.
Assigned Active Courses: CR010, CR040, CR070, CR100

[TR011] Audrey Sim — *MBA, Senior Enterprise Growth Strategist*
Specialization: Digital Marketing | **Experience:** 14+ Years | **Student Rating:** 4.95/5.00 (820 students mentored)
Academic & Professional Qualifications: MBA, Senior Enterprise Growth Strategist
Biography & Industry Track Record: Performance marketing maestro having managed $20M+ in digital ad spend across APAC. Teaches omnichannel data-driven growth.
Assigned Active Courses: CR011, CR041, CR071

[TR012] Benjamin Lim — *MSc Financial Analytics (SMU), CFA*
Specialization: Business Analytics | **Experience:** 15+ Years | **Student Rating:** 4.96/5.00 (867 students mentored)
Academic & Professional Qualifications: MSc Financial Analytics (SMU), CFA
Biography & Industry Track Record: Corporate strategy director transforming raw operational metrics into board-level analytics dashboards and strategic growth roadmaps.
Assigned Active Courses: CR012, CR042, CR072

[TR013] Rachel Tan — *MA Applied Linguistics (Warwick University)*
Specialization: English | **Experience:** 3+ Years | **Student Rating:** 4.97/5.00 (914 students mentored)
Academic & Professional Qualifications: MA Applied Linguistics (Warwick University)
Biography & Industry Track Record: Specialist in English phonetics, rhetoric, and international academic examinations. Over 90% of her IELTS students attain Band 8.0 or higher.
Assigned Active Courses: CR013, CR043, CR073

[TR014] Jonathan Seah — *BSc Mathematics (1st Class Hons, NUS)*
Specialization: Mathematics | **Experience:** 4+ Years | **Student Rating:** 4.98/5.00 (961 students mentored)
Academic & Professional Qualifications: BSc Mathematics (1st Class Hons, NUS)
Biography & Industry Track Record: Singapore Mathematical Olympiad medalist. Passionate about deconstructing complex algebraic proofs into intuitive visual steps.
Assigned Active Courses: CR014, CR044, CR074

[TR015] Dr. Eugene Ng — *PhD Biomedical Engineering (NTU)*
Specialization: Science | **Experience:** 5+ Years | **Student Rating:** 4.99/5.00 (1,008 students mentored)
Academic & Professional Qualifications: PhD Biomedical Engineering (NTU)
Biography & Industry Track Record: Published researcher in biomedical physics and biology. Integrates hands-on experimental inquiry to instill genuine scientific curiosity.
Assigned Active Courses: CR015, CR045, CR075

[TR016] Li Wei — *MA Chinese Pedagogy (Peking University)*
Specialization: Chinese | **Experience:** 6+ Years | **Student Rating:** 4.85/5.00 (1,055 students mentored)
Academic & Professional Qualifications: MA Chinese Pedagogy (Peking University)
Biography & Industry Track Record: Master educator specializing in Higher Chinese essay writing, oral discourse, and modern Chinese literature for secondary and junior college.
Assigned Active Courses: CR016, CR046, CR076

[TR017] Dr. Fiona Campbell — *PhD Comparative Education (Oxford)*
Specialization: IB Programme | **Experience:** 7+ Years | **Student Rating:** 4.86/5.00 (1,102 students mentored)
Academic & Professional Qualifications: PhD Comparative Education (Oxford)
Biography & Industry Track Record: Senior IBDP Examiner with deep mastery of Theory of Knowledge (TOK), Extended Essays, and Higher Level subject moderation.
Assigned Active Courses: CR017, CR047, CR077

[TR018] Stuart Mitchell — *MA Education (University of Edinburgh)*
Specialization: IGCSE Programme | **Experience:** 8+ Years | **Student Rating:** 4.87/5.00 (1,149 students mentored)
Academic & Professional Qualifications: MA Education (University of Edinburgh)
Biography & Industry Track Record: Cambridge Assessment accredited trainer having prepared hundreds of international students across Singapore for top global boarding schools.
Assigned Active Courses: CR018, CR048, CR078

[TR019] Gavin Neo — *Distinguished Data Platform Fellow, Power BI Specialist*
Specialization: Power BI | **Experience:** 9+ Years | **Student Rating:** 4.88/5.00 (1,196 students mentored)
Academic & Professional Qualifications: Distinguished Data Platform Fellow, Power BI Specialist
Biography & Industry Track Record: Author of enterprise DAX modeling frameworks. Trained finance and supply chain teams across multinational corporate headquarters in Singapore.
Assigned Active Courses: CR019, CR049, CR079

[TR020] Hafiz Ismail — *ISTQB Advanced Level Test Manager*
Specialization: Software Testing | **Experience:** 10+ Years | **Student Rating:** 4.89/5.00 (1,243 students mentored)
Academic & Professional Qualifications: ISTQB Advanced Level Test Manager
Biography & Industry Track Record: DevOps & Quality Engineering leader with 10+ years driving test automation in high-frequency trading and fintech platforms.
Assigned Active Courses: CR020, CR050, CR080

[TR021] Dr. Stephanie Low — *EdD Curriculum & Instruction (Bristol)*
Specialization: PSLE Preparation | **Experience:** 11+ Years | **Student Rating:** 4.90/5.00 (1,290 students mentored)
Academic & Professional Qualifications: EdD Curriculum & Instruction (Bristol)
Biography & Industry Track Record: Specialist in early cognitive development and accelerated mathematics heuristics for upper primary gifted education programs.
Assigned Active Courses: CR021, CR051, CR081

[TR022] Cheryl Chia — *MEd Curriculum Studies (NIE Singapore)*
Specialization: O-Level Preparation | **Experience:** 12+ Years | **Student Rating:** 4.91/5.00 (1,337 students mentored)
Academic & Professional Qualifications: MEd Curriculum Studies (NIE Singapore)
Biography & Industry Track Record: Master trainer for O-Level Pure Sciences (Physics & Chemistry). Developer of proprietary Singapore exam memory retention maps.
Assigned Active Courses: CR022, CR052, CR082

[TR023] Alan Quek — *MSc Economics (London School of Economics)*
Specialization: A-Level Preparation | **Experience:** 13+ Years | **Student Rating:** 4.92/5.00 (1,384 students mentored)
Academic & Professional Qualifications: MSc Economics (London School of Economics)
Biography & Industry Track Record: Ex-Monetary Authority of Singapore (MAS) analyst. Renowned JC economics tutor known for sharp real-world case analysis.
Assigned Active Courses: CR023, CR053, CR083

[TR024] Jeremy Fong — *BEng Computer Science (NUS), Maker Mentor*
Specialization: Coding & Robotics | **Experience:** 14+ Years | **Student Rating:** 4.93/5.00 (1,431 students mentored)
Academic & Professional Qualifications: BEng Computer Science (NUS), Maker Mentor
Biography & Industry Track Record: Pioneer of micro:bit and robotic IoT workshops in Singapore schools. Mentored teams to win top honors at Tan Kah Kee Science Award.
Assigned Active Courses: CR024, CR054, CR084

[TR025] Jason Wu — *Principal Python Engineer & PyCon Speaker*
Specialization: Python Programming | **Experience:** 15+ Years | **Student Rating:** 4.94/5.00 (1,478 students mentored)
Academic & Professional Qualifications: Principal Python Engineer & PyCon Speaker
Biography & Industry Track Record: 15 years specializing in Django, FastAPI, backend microservices, and asynchronous concurrency for Singapore tech companies.
Assigned Active Courses: CR025, CR055, CR085

[TR026] Tan Zhi Wei — *Head of Analytics & Data Systems, BEng*
Specialization: Data Analytics | **Experience:** 3+ Years | **Student Rating:** 4.95/5.00 (1,525 students mentored)
Academic & Professional Qualifications: Head of Analytics & Data Systems, BEng
Biography & Industry Track Record: Builds customer propensity and fraud prediction models. Mentor for junior data analysts seeking high-yield career pivots.
Assigned Active Courses: CR026, CR056, CR086

[TR027] Kavita Ramasamy — *Lead AI Engineer, MTech (NUS)*
Specialization: Artificial Intelligence | **Experience:** 4+ Years | **Student Rating:** 4.96/5.00 (372 students mentored)
Academic & Professional Qualifications: Lead AI Engineer, MTech (NUS)
Biography & Industry Track Record: AI researcher working on generative NLP models and ethical AI deployment. Recognized in Southeast Asia Women in Tech.
Assigned Active Courses: CR027, CR057, CR087

[TR028] Felix Wong — *Senior ML Engineer, MSc Computer Science*
Specialization: Machine Learning | **Experience:** 5+ Years | **Student Rating:** 4.97/5.00 (419 students mentored)
Academic & Professional Qualifications: Senior ML Engineer, MSc Computer Science
Biography & Industry Track Record: Specialist in recommendation engines and production ML pipelines using MLflow, Kubeflow, and cloud ML architectures.
Assigned Active Courses: CR028, CR058, CR088

[TR029] Zackary Tay — *Offensive Security Certified Professional (OSCP)*
Specialization: Cyber Security | **Experience:** 6+ Years | **Student Rating:** 4.98/5.00 (466 students mentored)
Academic & Professional Qualifications: Offensive Security Certified Professional (OSCP)
Biography & Industry Track Record: Ethical hacker and vulnerability researcher. Passionate about raising Singapore workforce security readiness against ransomware.
Assigned Active Courses: CR029, CR059, CR089

[TR030] Darren Tan — *Cloud Solutions Lead, CKA, CKS, Terraform*
Specialization: Cloud Computing | **Experience:** 7+ Years | **Student Rating:** 4.99/5.00 (513 students mentored)
Academic & Professional Qualifications: Cloud Solutions Lead, CKA, CKS, Terraform
Biography & Industry Track Record: Cloud architect who has designed scalable multi-region infrastructures for ASEAN healthcare and ecommerce platforms.
Assigned Active Courses: CR030, CR060, CR090

7. Official Industry Certifications & Central Credential Registry

Digital credential specifications, issuing bodies, verification codes, and competencies for all 20 certified credentials.

Cert ID	Industry Credential Title	Category	Issuing Authority	Verification Code	Level & Validity	Competencies Formally Validated
CERT001	**Singapore MOE-Aligned PSLE Distinction Fellow**	Data Analytics	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1000**	Advanced Professional Lifetime Accreditation	SQL, Tableau, Power BI, Excel Advanced, ETL Pipelines
CERT002	**Cambridge GCE O-Level Academic Excellence Diploma**	Artificial Intelligence	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1047**	Executive Specialist Lifetime Accreditation	GenAI, LangChain, PyTorch, Transformers, Prompt Engineering
CERT003	**Cambridge GCE A-Level Higher Secondary Diploma**	Machine Learning	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1094**	Advanced Professional Lifetime Accreditation	Scikit-Learn, MLflow, Supervised/Unsupervised Learning, TensorFlow
CERT004	**Junior STEM & Robotics Innovation Specialist**	Cyber Security	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1141**	Executive Specialist Lifetime Accreditation	Network Security, Penetration Testing, SIEM, Incident Response
CERT005	**Certified Professional Python Developer (SSG Aligned)**	Cloud Computing	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1188**	Advanced Professional Lifetime Accreditation	Enterprise Cloud Architecting, Kubernetes, Docker, Terraform, CI/CD
CERT006	**Certified Enterprise Data Analytics Specialist**	Python Programming	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1235**	Executive Specialist Lifetime Accreditation	Python 3.12, FastAPI, OOP, Data Structures, REST APIs
CERT007	**Applied Artificial Intelligence & GenAI Practitioner**	Digital Marketing	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1282**	Advanced Professional Lifetime Accreditation	Search Engine Marketing, Social Media Advertising, SEO, Conversion Rate Optimization

CERT008	**Professional Machine Learning Engineering Fellow**	Business Analytics	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1329**	Executive Specialist Lifetime Accreditation	Financial Modeling, KPI Frameworks, Predictive Forecasting, Executive Presentation
CERT009	**Certified Cyber Security Defense & Operations Specialist**	Coding & Robotics	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1376**	Advanced Professional Lifetime Accreditation	C++, Micro:bit, Sensors & Actuators, Algorithmic Thinking
CERT010	**Certified Enterprise Cloud Architect (Multi-Cloud)**	IELTS Preparation	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1423**	Executive Specialist Lifetime Accreditation	Academic Writing Task 1 & 2, Oral Fluency, Speed Reading Techniques
CERT011	**Certified Digital Marketing & Growth Strategist**	PSLE Preparation	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1470**	Advanced Professional Lifetime Accreditation	Heuristic Problem Solving, Science Open-Ended Keywords, Oral Presentation
CERT012	**Certified Corporate Business Analytics Specialist**	O-Level Preparation	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1517**	Executive Specialist Lifetime Accreditation	Pure Sciences Mastery, A-Math & E-Math Papers, English Comprehension
CERT013	**Cambridge English Professional & Academic Fluency Diploma**	A-Level Preparation	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1564**	Advanced Professional Lifetime Accreditation	H2 Subject Analysis, Case Study Deconstruction, GP Argumentation
CERT014	**Advanced Mathematics & Olympiad Heuristic Fellow**	English	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1611**	Executive Specialist Lifetime Accreditation	Creative Composition, Critical Reading, Rhetorical Analysis
CERT015	**Experimental Science & Laboratory Inquiry Diploma**	Mathematics	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1658**	Advanced Professional Lifetime Accreditation	Model Drawing Method, Calculus, Trigonometry, Speed Arithmetic
CERT016	**Higher Chinese Language & Literature Distinction Fellow**	Science	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1705**	Executive Specialist Lifetime Accreditation	Experimental Design, Scientific Keyword Precision, Data Interpretation
CERT017	**International Baccalaureate (IB) Diploma Specialist**	Chinese	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1752**	Advanced Professional Lifetime Accreditation	Higher Chinese Composition, Oral Fluency, Idioms & Classical Text
CERT018	**Cambridge IGCSE Global Honors Diploma**	IB Programme	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1799**	Executive Specialist Lifetime Accreditation	Internal Assessments (IA), Theory of Knowledge (TOK), Extended Essay
CERT019	**Certified Professional Power BI Data Analyst Associate**	IGCSE Programme	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1846**	Advanced Professional Lifetime Accreditation	Past Paper Mastery, Examiner Rubric Alignment, Time Management
CERT020	**Certified Quality & Test Automation Engineer**	Power BI	Dagsis University Dummy in partnership with Singapore Industry Boards	**SG-APX-1893**	Executive Specialist Lifetime Accreditation	DAX Formulas, Power Query (M), Data Modeling, Executive Reporting

8. Government Grants, SkillsFuture Singapore (SSG) & Financing

1. SkillsFuture Singapore (SSG) Course Subsidies:
• **Mid-Career Enhanced Subsidy (MCES):** Singapore Citizens aged 40 and above receive up to **70% course fee subsidy** on approved modular executive programmes.
• **Standard Baseline Subsidy:** Singapore Citizens aged 25 to 39 receive up to **50% course fee subsidy**.
• **Permanent Resident Subsidy:** Singapore Permanent Residents receive up to **30% course fee subsidy**.
• **SkillsFuture Credit (SFC) Offset:** Eligible Singaporeans may utilize their opening SFC credit (SGD $500) and mid-career top-ups to offset remaining unfunded tuition fee balances directly via the MySkillsFuture portal upon enrollment.

2. NTUC Union Training Assistance Programme (UTAP):

NTUC union members receive 50% co-funding of unfunded tuition fee balances, up to SGD $250 per calendar year. Enhanced UTAP funding provides up to SGD $500 per year for union members aged 40 and above.

3. Post-Secondary Education Account (PSEA):
Singapore Citizens below 31 years of age can utilize accumulated PSEA savings to offset approved executive diplomas and professional certifications.

4. Flexible Commercial Tuition Financing & Installment Plans:
• **0% Interest Installment Plans:** 6-month and 12-month zero-interest credit card installment facilities available across all major Singapore commercial retail banks.
• **Electronic Payment Methods:** PayNow Corporate (UEN: 201829481E), FAST instant bank transfer, interbank GIRO, and major international credit/debit cards.
• **Corporate Billing & Invoicing:** Enterprise sponsorship billing with 30-day settlement terms for registered corporate entities upon signed service agreements.

9. Admissions Protocol, Standard PEI-Student Contract & Refund Matrix

Step-by-Step Admissions Procedure:
1. **Application Submission:** Online submission via website admissions portal or in-person at any of our 10 Singapore campuses.
2. **Prerequisite Verification:** Academic Registry reviews educational transcripts, professional experience, and prerequisite proficiencies within 2 working days.
3. **Standard PEI-Student Contract Execution:** In statutory compliance with the Committee for Private Education (CPE), every applicant signs a legally binding Student Contract detailing course duration, fee installments, cooling-off provisions, and refund terms.
4. **Fee Protection Scheme (FPS):** All course fees are escrowed and protected under an approved FPS Insurance Underwriter. An official FPS Certificate is dispatched to the student within 7 working days of fee payment.
5. **Medical Insurance Coverage:** Comprehensive group medical insurance provides inpatient hospital and surgical coverage of up to SGD $20,000 per policy year for all enrolled full-time students.
6. **Matriculation & Student Portal:** Dispatch of student portal login credentials, access to online learning modules, seminar timetables, and resource libraries.

Triggering Withdrawal Event / Written Notice	Refund %	Statutory Terms & Governing Provisions
Notice within Statutory Cooling-Off Period (14 Calendar Days from Signing)	**100%**	Full refund of all tuition and course fees paid; maximum consumer protection under CPE regulations.
Notice received > 14 calendar days prior to Cohort Commencement Date	**75%**	75% of total course tuition refunded. Administrative registration fee non-refundable.
Notice received between 1 and 14 calendar days prior to Cohort Commencement	**50%**	50% of total course tuition refunded. Seat allocation forfeited.
Notice received on or after Cohort Commencement Date	**0%**	No refund after the course officially starts. Deferment options available upon valid medical documentation.

10. Academic Regulations, Grading Standards & Graduation Criteria

• **Attendance Thresholds:** Minimum **75% attendance** required for local Singaporean / PR students to qualify for examinations, government subsidies, and certification. International students holding Student Passes must maintain **90% attendance** monthly as mandated by the Immigration & Checkpoints Authority (ICA).
• **Grading Hierarchy:** High Distinction (HD: 85-100%), Distinction (D: 75-84%), Credit (C: 65-74%), Pass (P: 50-64%), Fail (F: <50%).
• **Graduation & Award Criteria:** Successful completion of all required modules, cumulative GPA >= 2.0 (50%), verified capstone project submission, zero outstanding financial liabilities, and adherence to the Student Code of Conduct.
• **Missed Classes & Makeup Protocol:** Synchronous video recordings of missed lectures are uploaded to the Student LMS Portal within 24 hours. Students may book 1-on-1 makeup clinics with teaching assistants.

11. Complimentary Trial Classes & Academic Seminars Procedure

Prospective students and working professionals may experience our pedagogy before making financial commitments.
• **Complimentary Seat Quotas:** Each intake reserves 5 to 10 complimentary trial seats per course.
• **Session Format:** 90-minute live interactive seminar with the assigned master trainer, featuring live demonstrations, Q&A;, and syllabus

deconstruction.
• **Booking Procedure:** Prospective learners may book via the `/trial-classes` portal, through the website AI Chatbot, or by messaging our WhatsApp hotline at **+65 XXXXXXXXX**.
• **Zero Financial Obligation:** Trial attendance does not require credit card submission or formal enrollment commitment.

12. Student Portal & LMS Learning Architecture

The Dagsis Student Portal (`/dashboard`) provides a centralized interface for students:
• **Interactive Course Tracker:** Real-time progress monitoring, upcoming assignment deadlines, and attendance logs.
• **Lecture Video Repository:** High-definition replays of all synchronous seminars, available for 12 months after graduation.
• **Assignment & Lab Submission:** Automated code evaluations, project submissions, and instructor feedback logs.
• **Central Credential Repository:** Direct issuance of tamper-proof digital certificates with verifiable cryptographic hashes.
• **Academic Counseling Booking:** Direct 1-on-1 appointment scheduling with academic advisors and career coaches.

13. Student Testimonials & Representative Alumni Outcomes

Marcus Tan — *Cyber Security Analyst at Leading Financial Institution* (Executive Certificate in Cyber Security)
★★★★★ "The hands-on red team and blue team labs at the City campus simulated real enterprise environments. Trainer Kelvin provided the technical edge needed to pass the rigorous technical interview at a tier-1 financial institution."

Audrey Lim — *Data Analytics Specialist at Regional Technology Group* (Executive Diploma in Data Analytics)
★★★★★ "Transitioning from marketing to analytics seemed daunting until I enrolled in CR001. The step-by-step SQL and Power BI curriculum gave me immediate workplace competence and a 35% salary uplift within 6 months."

Pravin Sharma — *Enterprise Cloud Architect at National Telecom Group* (Professional Certification in Cloud Computing)
★★★★★ "The hybrid weekend classes allowed me to maintain my full-time commitments while building production-grade Kubernetes and cloud deployment pipelines. Unmatched instructor depth."

Mrs. Jennifer Seah — *Parent of Distinction Student* (PSLE Heuristic Mathematics Masterclass)
★★★★★ "My son improved from AL4 to AL1 in his Mathematics preliminary exams. The heuristic model drawing methods taught at the Tampines campus gave him complete confidence."

Rachel Ng — *Head of Growth at Major E-Commerce Group* (Executive Diploma in Digital Marketing)
★★★★★ "Audrey Sim's performance marketing insights are world-class. Managing omni-channel campaigns and CAC-to-LTV attribution modeling directly boosted our quarterly conversion by 40%."

14. Comprehensive AI Chatbot Conversational Response Handbook (55 Scenarios)

Verbatim, statutory-compliant answers for conversational retrieval. The AI agent must deliver these answers when queried.

Q: What are the general admission requirements for executive diplomas?
[INTENT: admissions_eligibility]
Applicants must possess a recognized Diploma, Degree, or at least 2 years of relevant professional working experience. Mature applicants aged 30 and above with 8 years of working experience may also qualify via an entrance interview. Enquire via admissions@dagsis.edu.sg or +65 XXXXXXXXX.

Q: How do I apply for a course at Dagsis University Dummy?
[INTENT: application_steps]
You can apply online via our Admissions page or visit any of our 10 campus registries. Application steps: 1. Submit online application form with ID and transcripts; 2. Prerequisite verification by Registry within 2 working days; 3. Sign Standard PEI-Student Contract; 4. Fee payment and FPS escrow activation.

Q: What documents are required during enrollment?
[INTENT: application_documents]
Singapore Citizens / PRs: NRIC (front and back) and highest academic certificate. International applicants: Passport copy, educational transcripts, and proof of English proficiency (IELTS 6.0 or equivalent). Working adults applying for mature admission should submit a detailed CV.

Q: What are the application deadlines and intake schedules?
[INTENT: intake_dates]
We operate rolling quarterly intakes in January, April, July, and October. Modular executive short courses and weekend workshops commence at the start of every month. Check current cohort availability via our website or +65 XXXXXXXXX.

Q: Can international students apply for full-time courses?
[INTENT: international_admissions]
Yes. International students may enroll in approved full-time programmes eligible for Student Pass sponsorship under the Immigration & Checkpoints Authority (ICA). ICA mandates a minimum 90% monthly attendance.

Q: What English language proficiency is required?
[INTENT: english_proficiency]
For English-medium executive programmes, applicants must have a minimum GCE O-Level C6 in English, an IELTS score of 6.0, TOEFL 80, or pass the Dagsis University Dummy English Diagnostic Placement Exam.

Q: What is the minimum age to enroll?
[INTENT: minimum_age]
Executive education programmes require applicants to be at least 21 years old. For Cambridge preparatory courses (PSLE, O-Level, A-Level, IGCSE), enrolment corresponds with standard academic age cohorts (7 to 19 years old).

Q: Can I transfer credits from previous tertiary studies?
[INTENT: credit_transfer]
Yes, Credit Exemption and Recognition of Prior Learning (RPL) applications are evaluated by the Academic Board. Exemptions up to a maximum of 30% of modular course credits may be granted upon submission of detailed syllabus transcripts.

Q: What happens after I submit my application online?
[INTENT: post_application]
Our Admissions Registry will review your credentials within 2 working days. Upon approval, you will receive an official Letter of Offer and an electronic copy of the Standard PEI-Student Contract for digital signature.

Q: Are courses suitable for working professionals?
[INTENT: working_adults_suitability]
Absolutely. Over 75% of our learners are working adults. Programmes feature hybrid formats, weekday evening lectures (7:00 PM - 10:00 PM), and weekend intensives (Saturdays/Sundays 9:00 AM - 5:00 PM) to ensure zero work disruption.

Q: Are courses eligible for SkillsFuture Singapore (SSG) funding?
[INTENT: skillsfuture_eligibility]
Yes, approved modular programmes are eligible for SkillsFuture funding. Eligible Singapore Citizens aged 40 and above qualify for the Mid-Career Enhanced Subsidy (MCES) of up to 70% course fee subsidy. Citizens aged 25-39 receive up to 50% baseline subsidy.

Q: How do I use my SkillsFuture Credit (SFC) to pay?
[INTENT: skillsfuture_claim_process]
Upon receiving your official invoice, log in to the MySkillsFuture portal (myskillsfuture.gov.sg) using your Singpass. Select 'Dagsis University Dummy', enter your course code and invoice number, and submit your credit deduction request prior to course commencement.

Q: What is the NTUC UTAP subsidy and how do I claim it?
[INTENT: utap_funding]
NTUC Union Training Assistance Programme (UTAP) provides union members with 50% co-funding of unfunded tuition fees, up to SGD $250 per calendar year (up to SGD $500 for members aged 40+). Claims are submitted via the NTUC portal within 6 months of course completion.

Q: Can I use my Post-Secondary Education Account (PSEA)?
[INTENT: psea_usage]
Yes, Singapore Citizens under 31 years old can use PSEA funds for eligible diploma and certificate programmes. Complete the MOE PSEA Ad-Hoc Application Form and submit it to our Finance Registry at fps@dagsis.edu.sg.

Q: Do you offer 0% interest monthly installment plans?
[INTENT: installment_plans]
Yes. We offer 6-month and 12-month interest-free installment plans with all major Singapore commercial credit cards. Alternatively, students can arrange split fee payments in line with their CPE Student Contract schedule.

Q: Can my employer sponsor my course fees?
[INTENT: corporate_sponsorship]
Yes. We support corporate-sponsored billing with electronic invoicing on 30-day settlement terms. Eligible companies may also claim Absentee Payroll (AP) funding through Enterprise Singapore / SSG.

Q: What is the net fee payable after all government subsidies?
[INTENT: net_fee_calculation]
Net fee depends on your age, citizenship, and remaining credits. For example, a SGD $3,500 course for a Singapore Citizen aged 40+ with 70% subsidy (SGD $2,450) and SGD $500 SkillsFuture Credit offset results in a net cash payable of just SGD $550.

Q: Is there any financial aid for low-income applicants?
[INTENT: financial_aid]
Yes, qualifying Singaporeans may combine SSG subsidies, Workfare Skills Support (WSS) scheme funding, and NTUC UTAP. Our financial counselors provide tailored assistance via admissions@dagsis.edu.sg.

Q: What payment methods are accepted?
[INTENT: payment_methods]
We accept PayNow Corporate (UEN: 201829481E), FAST interbank transfers, GIRO, all major commercial credit/debit cards, and SkillsFuture Portal direct credit deductions.

Q: Do I have to pay GST on course fees?
[INTENT: gst_policy]
All published course tuition fees include prevailing Goods and Services Tax (GST) unless explicitly stated otherwise on your formal PEI-Student Contract.

Q: What course formats are available?
[INTENT: learning_formats]
We provide 5 flexible learning formats: 1. Full-Time On-Campus; 2. Part-Time Weekday Evening (7:00 PM - 10:00 PM); 3. Weekend Intensive (Saturdays/Sundays 9:00 AM - 5:00 PM); 4. Synchronous Live Online; 5. Blended Hybrid.

Q: What happens if I miss a lecture?
[INTENT: missed_classes]
All synchronous lectures are recorded in high-definition and uploaded to your Student Portal (`/dashboard`) within 24 hours. Students may review recordings and book 1-on-1 makeup clinics with teaching faculty.

Q: What is the maximum class size?
[INTENT: class_size]
To guarantee intensive interaction and personalized faculty mentorship, technical executive classes are capped at 18 to 24 students. Academic preparatory tutorials are capped at 12 to 15 students.

Q: How are courses assessed?
[INTENT: assessment_methods]
Courses use practical, industry-aligned evaluation: 40% Continuous Modular Lab Work / Quizzes, 40% Applied Industry Capstone Project, and 20% Formal Technical Defense or Written Examination. There are no redundant memorization tests.

Q: Can I switch my learning format during the course?
[INTENT: format_transfer]
Yes, students may request to switch between weekday evening, weekend, and online cohorts by submitting a Cohort Transfer Request to registrar@dagsis.edu.sg at least 7 days before module commencement.

Q: What software tools and computing platforms are taught?
[INTENT: tools_technologies]
Our curriculum covers cutting-edge enterprise stacks: Python 3.12, SQL, Tableau, Power BI, PyTorch, Docker, Kubernetes, Terraform, Selenium, Playwright, and modern cloud deployment environments.

Q: Is hardware provided at campus facilities?
[INTENT: campus_hardware]
Yes, all 10 campus labs are outfitted with high-performance multi-monitor workstations, high-speed fiber internet, and dedicated lab servers. Students may also bring personal laptops and connect to our campus network.

Q: What is the duration of diploma programmes?
[INTENT: diploma_duration]
Executive diplomas range from 8 to 16 weeks (part-time or weekend intensives) and 6 to 10 weeks (full-time intensive). Total guided instructional hours range from 96 to 180 hours depending on specialization.

Q: Are course materials and software licenses included in the fee?
[INTENT: materials_inclusion]
Yes. Approved tuition covers comprehensive electronic courseware, lab access, cloud practice sandboxes, and textbook materials. No hidden lab fees.

Q: Do you provide 1-on-1 academic mentorship?
[INTENT: faculty_mentorship]
Yes. Every matriculated learner is paired with a master faculty mentor and has access to weekly office-hour consultation slots booked via the Student Portal.

Q: Who are the trainers teaching at Dagsis University Dummy?
[INTENT: faculty_overview]
Our faculty comprises 30 distinguished master trainers and industry veterans with an average of 14+ years of professional and research experience. Trainers hold advanced Master's and Doctoral qualifications in their respective domains.

Q: Can you tell me about Trainer Rajesh Nair (TR007)?
[INTENT: trainer_rajesh_nair]
Rajesh Nair (TR007) holds a Master of Technology in AI and is a Senior AI Systems Architect with 14+ years of experience. He specializes in computer vision, LLM fine-tuning, and scalable neural architectures, holding an exceptional 4.91/5.00 student rating.

Q: Can you tell me about Trainer Kelvin Ho (TR010)?
[INTENT: trainer_kelvin_ho]
Kelvin Ho (TR010) is an Enterprise Cloud Solutions Architect with 16+ years of experience. He has migrated multi-million dollar workloads to Kubernetes and serverless architectures, teaching Cloud Computing and DevOps with a 4.94/5.00 student rating.

Q: Can you tell me about Trainer Audrey Sim (TR011)?
[INTENT: trainer_audrey_sim]
Audrey Sim (TR011) holds an MBA and is a Senior Enterprise Growth Strategist with 12+ years of experience managing over $20M+ in digital advertising budgets across APAC. She holds a stellar 4.95/5.00 student satisfaction score.

Q: Can you tell me about Trainer Gavin Neo (TR019)?
[INTENT: trainer_gavin_neo]
Gavin Neo (TR019) is a Distinguished Data Platform Fellow and Power BI Specialist with 15+ years of experience developing enterprise DAX modeling frameworks, with an impressive 4.88/5.00 student rating across 1,196 learners.

Q: Where is the Principal Campus & Headquarters located?
[INTENT: headquarters_location]
Our Principal Campus & Headquarters is located at 123, Street ABC, State XYZ, Pin-000000. It features 14 executive seminar suites, advanced cloud labs, and full admissions registry services.

Q: What are the operating hours across your 10 campuses?
[INTENT: operating_hours]
All 10 regional campuses are open 7 days a week: Monday to Friday from 9:00 AM to 9:30 PM, and Saturday & Sunday from 8:30 AM to 7:00 PM.

Q: How do I get to the Orchard Flagship Campus via MRT?
[INTENT: transit_orchard]
The Orchard Flagship Campus is directly connected to Somerset MRT via a direct sheltered underpass at Exit B. Multiple bus lines connect directly outside the building.

Q: Is parking available at the campus locations?
[INTENT: parking_facilities]
Yes, all 10 campus commercial buildings feature multi-storey sheltered parking facilities with EV charging stations and disability-friendly access.

Q: Can students use campus facilities outside of class hours?
[INTENT: study_facilities]
Yes. Matriculated students have complimentary access to campus study pods, collaborative co-working spaces, and high-speed Wi-Fi during operating hours.

Q: What is the Committee for Private Education (CPE) Student Contract?
[INTENT: student_contract_purpose]
The Standard PEI-Student Contract is a statutory legal document mandated by CPE for all private education institutions. It clearly specifies course titles, modules, fee payment schedules, cooling-off provisions, and refund matrices to protect student interests.

Q: What is the statutory cooling-off period?
[INTENT: cooling_off_period]
Under CPE regulations, students enjoy a 14-calendar-day cooling-off period starting from the exact date the Student Contract is signed. If you submit written notice of withdrawal within these 14 days, you receive a 100% refund of all course fees paid.

Q: What is the Fee Protection Scheme (FPS)?
[INTENT: fps_protection]
The Fee Protection Scheme protects 100% of student tuition fees in the event of an institution's insolvency or closure. Dagsis University Dummy secures all fees via an approved FPS Insurance Underwriter, issuing an insurance certificate within 7 working days.

Q: What is the refund policy if I withdraw 20 days before class starts?
[INTENT: refund_before_14_days]
If written withdrawal notice is received more than 14 calendar days before the cohort commencement date, you will receive a 75% refund of the total tuition fee paid.

Q: Can I defer my studies if I have an emergency?
[INTENT: deferment_policy]
Yes. Students facing medical emergencies, official military mobilization (NS reservist), or urgent overseas work assignments may defer their cohort enrollment by up to 12 months without penalty upon submitting supporting documentation.

Q: How do I submit a formal refund request?
[INTENT: refund_submission]
Submit a completed Refund & Withdrawal Form along with your original receipt and supporting documents to our Finance Registry at fps@dagsis.edu.sg. Approved refunds are processed via bank transfer within 7 working days.

Q: Are certifications accredited and verifiable?
[INTENT: certification_accreditation]
Yes. All 20 official certifications are issued by Dagsis University Dummy in partnership with Singapore Industry Boards. Each certificate carries a unique Central Registry Verification Code (e.g., SG-APX-1846) verifiable 24/7 on our website at `/certifications`.

Q: How do employers verify my certificate?
[INTENT: employer_verification]
Employers can visit our Central Registry at `/certifications`, enter your unique Verification Code or student NRIC/Passport hash, and instantly view your official digital credential, issue date, and validated competencies.

Q: Do certifications expire?
[INTENT: certification_validity]
Most professional certifications carry a 3-year industry validity benchmark, during which alumni receive complimentary refresher webinars. Certain academic preparatory credentials maintain permanent validity.

Q: Will I receive a physical certificate or a digital badge?
[INTENT: credential_format]
Graduates receive both an embossed physical certificate presented at graduation and a secure OpenCerts-compatible digital certificate with cryptographic verification for professional resumes and digital career portfolios.

Q: What certification is awarded for Power BI programmes?
[INTENT: cert_power_bi]
Graduates of CR019 receive the 'Certified Professional Power BI Data Analyst Associate' (CERT019), validating DAX advanced modeling, Power Query automation, and executive BI dashboard architecture.

Q: How do I book a complimentary trial class?
[INTENT: book_trial_class]
You can reserve a seat via `/trial-classes` on our website, ask our AI Chatbot directly, or message WhatsApp at +65 XXXXXXXXX. We reserve 5 to 10 complimentary seats per course.

Q: Are trial classes really 100% free?
[INTENT: trial_free_verification]
Yes, 100% free with zero financial obligation. No credit card information is required to attend. It provides an authentic preview of our pedagogy, faculty, and facilities.

Q: What happens during the 90-minute trial seminar?
[INTENT: trial_class_agenda]
The session features a 50-minute live teaching demonstration on a key syllabus topic, a 20-minute hands-on practical lab exercise, and a 20-minute Q&A; with the master trainer and admissions counselors.

Q: Can I attend more than one trial class?
[INTENT: multiple_trials]
Yes, prospective students considering multiple specializations or parents reviewing preparatory options may attend up to 2 complimentary trial masterclasses per intake cycle.
